**SAY IT WITH SILK**  
This season's cool silk drapes tease your curves and add timeless glamour to any outfit. Bright blouses – like ODEL's peephole halter – are perfect for a mid-day coffee hang. Take a cue from Nina Ricci and add silk shirts to your office wardrobe; loosen up your buttons, baby, and roll up your sleeves to make it NSFW in one hot moment!

Add a tropical touch with floral prints from Mango or don a Miu Miu midi with a sweetheart neckline and midriff cutout for a toned treat; pair both pieces with platforms to be ahead of the silken curve. Pick a midnight, bell-sleeved mini from The Three By TPV to ooze effortless evening chill, or turn to Lanvin's maxis for a lengthy silhouette that screams, "Glamazon!"

50 Shades star **Dakota Johnson** adds drama to a plunging Gucci gown with an oversized pink bow cinching her waist. Demure and raunchy, Mr. Grey would be proud.

Proving that less is actually more, **Claire Danes** turns heads in her indigo silk charmeuse dazzler by Narciso Rodriguez and delicate drop earrings.

**Angelina Jolie** channels old Hollywood in a metallic, ruched Atelier Versace number and minimal make-up that keeps all attention on her hourglass bod!
